

## TECHNICAL DATA SHEET

### Thermal Rollcage Cover To Suit Standard A Frame Product Code: RSPC0219

#### Keypoints:

- Edges are blocked using nylon 40's thread block.
- Designed to fully enclose the roll cage and thermally protect from heat loss or gain.
- Supplied with Velcro fastenings, other fixing methods available for custom orders.
- Save on transport costs by not using temperature controlled vehicles.
- Greenhouse gas and other pollution emissions will be cut dramatically.
- Choice of colours available on larger orders.
- Customer branding available on request.

#### Specifications:

Overall Dimensions:	Fits a roll cage upto 740 x 850 x 1700 (WxDxH) <i>Bespoke sizes available</i>
Material:	420D PVC coated nylon
Performance:	<i>(Standard core material)</i>
Intrinsic thermal conductivity (k) W/m.K:	0.030 T
Thermal Resistance (clo):	4.70
